

BEAN BAGS

SINGLES & DOUBLES

TEXAS GOOD SAM

GAME

- 1) There are 2 game boards.
- 2) Each board is 36" long by 18" wide, one end is raised 12". A 9" hole is centered 12" from the raised end.
- 3) The boards are placed 20 feet apart measured from the front edge of the board.
- 4) There are 8 bean bags (4 each of two different colors) weighing one pound each constructed of heavy material such as denim.
- 5) The finished size of the bags is a 6" by 6" square.

PLAY

- 1) When playing "doubles", draw for partners as directed by the game official. If you draw a partner that is in your chapter, please change partners.
- 2) The player (team) will choose a set of bags and will use that color each time the bags are tossed.
- 3) The player must toss the bag underhanded from behind the front edge of the game board.
- 4) The game will consist of ten (10) frames with forty (40) bags tossed by each player.
- 5) When playing "singles", the player whose name appears first of the score sheet will toss first.
- 6) The players (team) will change ends after playing 5 frames. The player (team) that tossed first will toss second in the last 5 frames.
- 7) Each player will toss 4 bags, one at a time.
- 8) All bags will be removed from the board before another player tosses.
- 9) If a bag hits the floor (ground) and goes into the hole, it is a foul and the score does not count.
- 10) A bag that hits the floor and stays on the board is also a foul. The bag is removed before tossing another bag.

SCORING

- 1) Each bag that legally enters the hole scores one point for the player.
- 2) The individual score will count as the player's "single" score. Team members add their scores to get the "doubles" score.
